PROFESSIONAL SUMMARY

Results-driven BCA final-year student with hands-on experience building full-stack web applications (React.js, Node.js, Express.js, MongoDB). Proven ability to deliver end-to-end solutions — from responsive UI design to secure REST APIs and database architecture. Deepening expertise in AI/ML. Seeking an internship or entry-level Software Developer role to contribute to a product-focused engineering team.

TECHNICAL SKILLS

Languages:	Python, Java, JavaScript (ES6+)	Frontend:	React.js, HTML5, CSS3, Responsive Design
Backend:	Node.js, Express.js, REST APIs	Databases:	MongoDB, MySQL
Auth & Security:	JWT, Session Management Fundamentals	Tools:	Git, GitHub, Firebase, DSA, AI/ML

PROJECTS

Restaurant Booking System — Full-Stack Web App 2023–2026

Team Project · UIM Prayagraj | Tech: *React.js · Node.js · Express.js · MongoDB · JWT · CSS3*

- Developed a fully responsive restaurant booking platform using React.js with dynamic routing, conditional rendering, and reusable component architecture — enabling seamless table reservations across all device sizes.
- Engineered a secure backend with Node.js/Express.js REST APIs, implementing JWT-based authentication and bcrypt password hashing to protect user sessions and sensitive booking data stored in MongoDB.
- Led end-to-end technical documentation for a 3-developer team — covering system design, database schema, module specifications, API contracts, and project synopsis submitted for final-year evaluation.

Database Management System 2024

Individual Project | Tech: *MySQL · SQL · Normalization · Query Optimization*

- Designed a fully normalized relational schema (3NF) in MySQL, eliminating data redundancy across multiple related tables and improving overall query efficiency for complex data retrieval operations.
- Implemented complete CRUD operations using parameterized queries to prevent SQL injection attacks, ensuring data integrity and security across all transactional workflows.

Personal Portfolio Website 2024

Individual Project | Tech: *HTML5 · CSS3 · JavaScript · GitHub Pages*

- Designed and deployed a fully responsive personal portfolio using HTML5, CSS3, and vanilla JavaScript — showcasing projects, technical skills, and certifications with clean UI and smooth navigation.
- Hosted on GitHub Pages with version-controlled deployment, demonstrating practical knowledge of Git workflows and static site publishing in a real-world environment.

EDUCATION

Bachelor of Computer Applications (BCA) Jul 2023 – Jun 2026

United Institute of Management (FUGS) · Prayagraj, UP

Relevant Coursework: DSA, DBMS, Web Technologies, Software Engineering, Operating Systems

Intermediate (PCM) — UP Board · 63%

High School — UP Board · 88% 2021

CERTIFICATIONS & ACHIEVEMENTS

- Generative AI Mastermind — Outskill Deloitte Cybersecurity Job Simulation
- Digital Productivity Certificate — UNICEF Experiential Learning — UP Police (120 hrs, Jan–Feb 2026)
- Samvidhan Diwas Quiz — Ministry of Parliamentary Affairs MY Bharat Budget Quest 2026 — Ministry of Youth Affairs

SOFT SKILLS & INTERESTS

- Soft Skills: Analytical Thinking · Team Collaboration · Problem Solving · Communication · Adaptability
- Interests: AI/ML Trends · Competitive Quizzing · Open-Source · Tech Blogs · National-Level Competitions
