PROFESSIONAL SUMMARY

Results-driven Frontend Developer with hands-on experience building responsive, user-focused web applications using React.js, HTML5, CSS3, and JavaScript. Skilled in REST API integration, JWT-based authentication, database design with MySQL and MongoDB, and AI API integration using Groq and Gemini. Completed industry simulations with EY (Technology Risk) and Deloitte (Cybersecurity). Certified in Generative AI by TCS iON. Seeking an entry-level Frontend Developer role to deliver high-quality digital experiences in a collaborative engineering team.

TECHNICAL SKILLS

Languages: Python, HTML5, CSS3
Frontend: React.js, JavaScript (ES6+), Responsive Design, UI/UX
Databases: MySQL, MongoDB
Auth & Security: JWT, bcrypt, Firebase
AI & APIs: Gemini, Groq API, Prompt Engineering, ChatGPT, Claude
Tools: Git, GitHub, VS Code

PROJECTS

Restaurant Booking System — *React.js · Node.js · MySQL · MongoDB · JWT · bcrypt*

- Built responsive full-stack restaurant table booking platform using React.js with dynamic routing, reusable components, and clean UI; engineered 10+ secure REST API endpoints with JWT authentication and bcrypt password hashing.
- Optimized MySQL and MongoDB schema improving query performance by ~25%; led technical documentation for 3-developer team covering system design, DB schema, and API contracts.

Personal Portfolio Website — *HTML5 · CSS3 · JavaScript · Deployed on Render*

- Designed and developed a fully responsive cyberpunk-themed portfolio website using HTML5, CSS3, and JavaScript featuring custom animations, typing effects, skill bars, and particle background.
- Integrated DevMentor AI chatbot for interactive visitor engagement; deployed live at my-portfolio-qrfn.onrender.com.

DevMentor AI — *Groq API · Gemini · Prompt Engineering · Python*

- Developed AI-powered portfolio chatbot integrating Groq API (Llama-3.3-70b) and Gemini for fast, context-aware responses; engineered custom system prompts maintaining a consistent developer persona.
- Demonstrates practical AI API integration and prompt engineering skills with a polished responsive dark UI.

Database Management System — *MySQL · SQL · Normalization · Query Optimization*

- Designed 3NF-normalized relational schema in MySQL eliminating data redundancy and improving query performance by ~25%; implemented parameterized CRUD operations preventing SQL injection.

EDUCATION

Bachelor of Computer Applications (BCA) — United Institute of Management, Prayagraj Jul 2023 – Jun 2026

Intermediate (PCM) — UP Board 2023

High School — UP Board 2021

CERTIFICATIONS

- Generative AI Essentials — TCS iON (Apr 2026)
- Generative AI Mastermind — Outskill (Feb 2026)
- Claude Code 101 — Anthropic (May 2026)
- EY Technology Risk Simulation — Forage (Apr 2026)
- Deloitte Cybersecurity Simulation — Forage (Aug 2025)
- UP Police Experiential Learning — 120 hrs (Jan–Feb 2026)
